The article “METTL3 promotes the progression of nasopharyngeal carcinoma through mediating M6A modification of EZH2, by Q.-Z. Meng, C.-H. Cong, X.-J. Li, F. Zhu, X. Zhao, F.-W. Chen, published in Eur Rev Med Pharmacol Sci 2020; 24 (8): 4328-4336–DOI: 10.26355/eurrev\_202004\_21014–PMID: 32373970” has been retracted by the authors.

After publication, several issues were raised on PubPeer about the reliability of the published results. The same authors stated that the study was not performed in accordance with the standard procedures required.

In particular, Figure 1 also presents some concerns as it does not reflect the experimental data reported in the study.

The Publisher apologizes for any inconvenience this may cause.
